Dialogue 2

Patient: Nurse, I think I might have a fever. It's so cold in here!

Nurse: Here, let me check your forehead.

Patient: What do you think?

Nurse: You feel a bit warm. Let me get a thermometer to check.

Patient: How do I raise my bed? I can't find the controls.

Nurse: Here you are. Is that better?

Patient: Could I have another pillow?

Nurse: Certainly, Here you are. Is there anything else I can do for you?

Patient: No, thank you.

Nurse: OK, I'll be right back with the thermometer.

Patient: Oh, just a moment. Can you bring me another bottle of water, too?

Nurse: Certainly, I'll be back in a moment.

Nurse: (coming in the room) I'm back. Here's your bottle of water. Please put the thermometer under your tongue.

Patient: Thank you.
